Programming Assignment 2: EGG101:Introduction to Engineering Experience , Fall 2019

Problem 1 (10 Points) We need a (Python) programming code to add the first N numbers. Finish the steps in the code provided.

```
N = 10
sum = 0
for x in range(N):
    # Write your code(finish next line and remove symbol "#"
    # sum = sum +
print(sum)
```

Problem 2 (10 Points) We need a (Python) programming code to find the biggest number from a list. Finish the steps in the code provided.

```
max = 0
numbers = [2, 3, 5, 7]
for x in numbers:
    # Write your code(finish next two lines and remove symbol "#"s
    # if x > max:
    #    max =
print(max)
```
