
Programming Assignment 3: EGG101:Introduction to Engineering Experience , Fall 2019

Problem 1 (10 Points)

1. Download the Arduino Ellegro zip file from
<https://www.elegoo.com/tutorial/Elegoo%20Super%20Starter%20Kit%20for%20UNO%20V1.0.2019.03.04.zip>
or from the download page: <https://www.elegoo.com/download/>
2. Unzip the folder and open the *English* folder.
3. Inside the folder open the file: "Elegoo Super Starter Kit for UNO V1.0.2018.9.19.pdf".
4. Follow the instructions to install the IDE software (Lesson 0) and then follow Lesson 2 for blinking LED.
5. Take a picture of the blinking LED on the board and submit that pic as the acknowledgment for the successful completion of this assignment.
